

Association Of Ethanol Processors

Ethanol - Made In Kansas

Membership Application

What Is KAEP?

The Association of Ethanol Processors was formed to represent the interests of the ethanol manufacturing industry and its allied businesses in Kansas. The Association has hired Midwest Management Solutions, a professional management staff based in Topeka, KS to administer its programs.

"To continue to experience growth in the ethanol industry both in Kansas and nationally, it is important to improve our network of communication and cooperation. The sharing of information about operational, safety and technology developments is a significant benefit to our members, and our unified support of legislative initiatives can help Kansas producers be more competitive on a national scale." - Chris Standlee, Abengoa BioEnergy Corp.

Objective and Purpose of the Kansas Association of Ethanol Processors

1. Raise the awareness of the viability of ethanol and other renewable fuels as part of the domestic fuel supply.
2. Promote policies and programs to the federal, state and local governments in the United States of America and elsewhere which support and encourage the development and use of ethanol fuels.
3. Serve as a resource for providing accurate and current information to the media and others with respect to ethanol and its markets, producers, distributors and consumers.
4. Seek to set forth the provision of resources for demonstrating the positive nature of ethanol and renewable fuels to the economy, environment, security and stability of the United States of America; and facilitate educational events and materials and otherwise encourage greater public interest and knowledge concerning the production and use of ethanol and renewable fuels.

Key Benefits

- Communications and Public Relations (weekly electronic news updates)
- Interface with State and Federal agencies
- Representation before the Kansas Legislature, as directed by the Board of Directors
